We know of no man more to be envied than the owner of a good alfalfa field.

The summer work on the farm is all very poetic, when seen from the right side of a shady tree.

You must even take the metropolitan newspapers for what they mean instead of what they say. For instance, the market report from Chicago says "butter is stronger."

The last quarterly conference of this conference year was held at the M E church on Tuesday morning, at which the work of the year was reviewed and great satisfaction expressed by the District Superintendent at the progress made. At the beginning of the year through the death of some of the most liberal members and the removal of others, it was feared that the minister's salary would have to be reduced from \$700 to \$600, but so well have the stewards succeeded that it was resolved to pay the \$700 as usual. The pastor feeling that a change will be beneficial, both for himself and the church, asked for a change of appointments at the coming annual conference which begins September 16. Within the last two years a new parsonage has been built, barn bought, a new furnace put in the church, the church windows repaired at a cost of about \$100, and the Ladies Aid society has furnished the church with a new carpet costing over \$80.00 and other improvements amounting altogether to near \$3,000, all of which when a few small outstanding subscriptions are collected will be paid for leaving the church free from all indebtedness.
